BADLANDS

Get ready for an extraordinary journey into the heart of the North American Badlands, where wild creatures reign supreme and untold riches await! Introducing our thrilling video slot game, where magnificent bison, moose, elk, antelope, and owls come to life in a captivating adventure like no other.

With 6 reels, 4 rows and 40 paylines, this game introduces our groundbreaking WILD SIDE™ feature, where WILD symbols expand sideways after two of them appear in the same row. Watch in awe when a lucky spin stampedes WILD buffalo across every reel, leading to spectacular wins!

Next, you'll encounter the exhilarating Free Spins accumulation meter. This innovative feature adds an extra layer of anticipation to your gameplay with 8 progressive levels to climb. Receiving 3 Coin Scatter symbols in each game will advance to a higher level, starting with 7 free spins at level 1 and ending with 20 free spins with 5x multiplier at level 8!

Get ready for the ultimate thrill when 4 Coin Scatter symbols grace your game. This triggers Free Spins bonus with the number of spins and multipliers at the current meter level. Once entering Free Spins, prepare to be amazed when the entire sixth reel transforms into Wild Buffalo and then remains throughout the bonus, ensuring boundless potential for incredible wins!

With mesmerizing visuals, captivating gameplay, and awesome features, our game immerses you in a wild adventure where every spin holds the promise of untold treasures.

The wilderness is calling, and fortune favors the bold who dare to embrace the untamed wild side!
